EASY TO USE,  
EASY TO AFFORD,  
EASY TO SEE  
WHAT'S SELLING

# SHARP

# SHARP XE-A101 ELECTRONIC CASH REGISTER

Just right for small businesses, the XE-A101 is an affordable cash register that's easy to install and use.

With eight departments you can split your products into easily understandable groups, so you can check where your sales are coming from – which is vital for profitability.

You can also programme up to eighty best selling items onto the Price Look Up (PLU) buttons, making it easier for the operator to use and providing your customers with a faster and more efficient service.

The large LED operator's display means it is easy to see prices, totals, change and the time.

Design is equally important with Sharp and the XE-A101 has been built with comfort of use in mind. Widely spaced keys lessen the chances of hitting the wrong key and it's small footprint means it takes up the minimum of counter space without sacrificing functionality.
